3. Basic condition and originality of internal mechanisms of the watch

The watch caseback was opened to perform a general inspection and is in good working order and the movement is believed to be all original.

4. Basic condition and originality of accessories

All accessories have been examined and are original to the watch, the exterior box have slight damage and the overall accessories have slight aging that is normal for watches of similar age.

Important notice:

This Report contains observations following a visual inspection of the watch and its accessories (the Watch) by The Horologist. It does not constitute any form of fact, warranty or guarantee, either express or implied, regarding the condition, originality, authenticity, or performance of the Watch.

The user of this Report acknowledges and agrees that the information provided herein is subject to limitations inherent in any visual inspection and may not reveal all potential issues or defects. This Report is not an exhaustive examination of the Watch and specific components may not have been assessed due to various factors.

The Report should not be a substitute for obtaining professional advice. Potential buyers should view or arrange inspections and ask questions, as well as conduct any research they feel is necessary before committing to bid or buy. Any watch that is not brand new should be serviced after purchase.
